Dear Joseph Dreitler,

Thank you for your message concerning the domain name WWWILLIAMSINC.COM.

Domains By Proxy ("DBP") provides a proxy registration service that allows its customers to register domain names without listing their contact information in the public WHOIS database. Since DBP is listed as the registrant of all domain names for which it provides service, it may appear that DBP operates or has an interest in the domain name or website. That is not the case; DBP is neither a domain name registrar, nor a hosting provider.

We have forwarded your complaint via email to our customer. In this email we requested that our customer contact you no later than close of business on March 28, 2013. If our customer fails to respond to our request, we may then disclose the registrant's contact information.

Please let us know if you have any questions or concerns.

Very truly yours,

H. Fennell

Dear Joseph,

Thank you for writing. We have to follow our internal procedures so as not to violate our company policies. We appreciate your patience and will contact you with the appropriate information if our customer fails to act on our requirements.

Very truly yours,
